

Conflict Materials Declaration

Fiberoptics Technology Inc. certifies, to the best of its knowledge that FTI is in compliance Pursuant to Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act, with regard to “Conflict Minerals”.

“Conflict Minerals” are defined as tin, tantalum, tungsten and gold that originated from the Democratic Republic of Congo (DRC) or an adjoining country (Angola, Burundi, Central African Republic, the Republic of the Congo, Rwanda, South Sudan, Tanzania, Uganda, and Zambia).

While we are constantly updating our records, we are currently in compliance with Section 1502. To the best of our knowledge, we can confirm that the materials supplied by us do not contain conflict minerals, including trace amounts, from any of the Covered Countries. If, during normal review, we find our suppliers not compliant, we will work with them to insure they gain compliance at the earliest moment.

Please feel free to contact with any questions.

A handwritten signature in black ink, appearing to read 'Zach Morin', is written over a light blue horizontal line.
